to Make an

IMPACT

Leadership Society

Philanthropy powers clinical innovation, broader access and vital support programs for our community. It fosters an exemplary culture of caring on the front lines and creates opportunities that change and save lives. As we advance in this new era of healthcare, generous donors are essential to ensure the health of our families and neighbors – through award-winning medical care, top-notch physicians and outstanding patient experiences. Please join us as a member of the Leadership Society and help us drive next-generation healthcare.

Englewood Health consistently earns national recognition for key clinical programs including cardiac and vascular surgery, cancer care, women’s health and gastroenterology. We are an international trailblazer in blood management and bloodless surgery and are recognized by the U.S. Congress as a model for the diagnosis and treatment of breast disease at The Leslie Simon Breast Care and Cytodiagnosis Center. Year after year, we earn high marks for clinical excellence and patient safety.
